To the people of Park Plaza Church of Christ,

I want to thank you for the letters, Magazines, and care packages. I say that I do but I really mean we. The Marine Corps enstills an attitude in wich sharing is a big part of your life. So when I say we I say it meaning many of the Marines in my barracks. Its amazing to watch their eyes light up to see something home made. You would think they just got a new car or won the lottery. Little things from home make a Marine's day, Esp. when it is something they associate with Mom or Grandma. They will walk around for hours sometimes days with an ear to ear grin because Grandma sent cookies. So Again I want to thank you, on behalf of my entire barracks.

The Best Bdge ever!!!
